

Application to Change Species

SECTION A (to be filled in by all applicants)

Name: _____
(family name) (given name)

Current species: _____
(class) (family) (sub-family)(genus) (species)

Number of years in current species: _____

List all previous species of which you have been a member beginning with the most recent:

(3b)

SECTION B: (to be filled in only by applicants who have filled in Section one, line 3b)

Reason for leaving previous species:

Have you ever been, for any reason, refused entry into another species: (check one)

Yes ___ No ___ I don't really remember _____ (32a)

If you answered yes or filled in line 32a then account for your reasons by drawing a picture of a pelican attempting to mount (not in a sexual way) a unicycle in the space provided below.

SECTION C: (to be filled out by all applicants)

Name of new species:

(class) (family) (sub-family) (genus) (species)

Reason for leaving current species: (check one)

Diet____Moved____ Sexual _____ Just can't stand these _____s
anymore

(no details necessary)

(name of your species)

SECTION D: (to be filled out by all applicants)

Knowledge of new species test:

- 1)Name three famous members of your new species (e.g. Lassie for canis familiaris)
- 2)In twenty words or less what are two things you should never say as a member of your new species

3)Is your new species primarily Nocturnal _____ or Diurnal _____

3b) How do you feel about that? _____

4)Name something that your new species likes to eat _____

5)Name someone who likes to eat you (your new species that is)_____

6)Can you think of any reason why? _____

7)Who is the leader of the club that is made for you and me? And, how do you spell that?_____

SECTION E: (optional)

If you are not accepted into your first choice new species do you have a second choice?

Yes_____

No _____

If yes then what is it? _____

How come?

SECTION F: (somewhat less optional but still optional - meaning, I guess, we won't really raise a stink if you don't fill it in)

In the interests of better service we are interested in your comments on how you feel you have been treated during your time 'in species'. In the following space that has been provided (at no little expence) please tell us how you feel your species let you down. Be unsparing in your detail and fearless in your criticism. It is the only way that anything can be improved. We truly want you to be happy in your species of choice._____
